Subject: FW: Charleston enquiry Hako LS 380

Chemoil confirmation that LS RMG not avail. In Charleston, SC

Have been advised there is no truck access for supply in Charleston, agent can reconfirm this.

Can also advise that cannot arrange LSGO supply by barge within vessels port stay, Current earliest is 2 days after departure.

There are no standard bunker only options en-route, any stops would entail a full port call with associated costs.

Best Regards,
Joe Wallace
